The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

Review of results for the financial period ended 31 March 2015 as compared to corresponding financial period ended 31 March 2014

Revenue

The Group recorded consolidated revenue of S\$4.984 million for the quarter ended 31 March 2015 ("Q1 2015"), a slight decrease of 1.8% against the revenue recorded in the quarter ended 31 March 2014 ("Q1 2014"). The decline in Group revenue for Q1 2015 is attributable to lower revenue recorded by GlobeOSS.

GlobeOSS recorded revenue of S\$1.557 million in Q1 2015, a decrease of 12.5% from the S\$1.780 million recorded in Q1 2014. This decline in revenue was mainly due to the lower system sale contract revenues.

In contrast, Unifiedcomms posted revenue of S\$3.368 million, an increase of 4.1% on the S\$3.234 million recorded in Q1 2014. This increase was driven primarily by the higher managed service contract revenues.

The Group's Others segment meanwhile contributed S\$0.059 million in income from investments.

The Group's sales mix in Q1 2015 showed an increase in the proportionate contribution of revenue of a recurring nature, with revenue from managed service contracts representing 67.0% of the Group's total revenue in Q1 2015 as compared to 62.1% in Q1 2014. The higher contribution of managed service contracts to the Group's sales mix in Q1 2015 is mainly attributable to the decrease in system sale contract revenues of the Group, which had declined 14.6% from S\$1.925 million in Q1 2014 to S\$1.644 million in Q1 2015.

Gross Profit and Gross Profit Margins

Although Group revenue was lower in Q1 2015, gross profit was higher at S\$2.697 million as compared to S\$2.307 million achieved in Q1 2014. This is attributable to the higher gross profit margin of 54.1% in Q1 2015 against 45.5% in Q1 2014, which was driven by the improvement in gross profit margin on system sale contract revenues from 35.4% in Q1 2014 to 44.8% in Q1 2015. This improvement was mainly due to the lower proportionate contribution of GlobeOSS system sale contracts, which generally deliver lower gross profit margin as a result of its typically higher third-party component costs.

The gross profit margin recorded by the Group on its managed service contract revenues also increased to 58.7% in Q1 2015 from 51.6% in Q1 2014. This increase in gross profit margin was a result of higher managed service contract revenues achieved coupled with lower cost of sales in Q1 2015.

Interest Income

The Group recorded interest income of S\$0.066 million in Q1 2015, marginally lower than the S\$0.072 million achieved in Q1 2014.

Other gains

The Group recorded other gains of S\$0.089 million in Q1 2015, 34.7% lower than the S\$0.136 million achieved in Q1 2014, mainly due to absence of cash incentives from the Singapore tax authority on certain plant and equipment investments of a subsidiary in Singapore.

Other Items of Expense

The Group recorded total expenses of S\$1.989 million in Q1 2015, 5.8% lower than the S\$2.112 million incurred in Q1 2014. This decrease in total expenses is mainly attributable to lower distribution costs recorded in Q1 2015 as a result of reduction in sales and business development headcount of the Group.

Net Profit and EBITDA

The Group recorded higher net profit of S\$0.743 million and EBITDA of S\$1.199 million in Q1 2015 as compared to the S\$0.327 million in net profit and S\$0.741 million in EBITDA achieved by the Group in Q1 2014. The higher net profit and EBITDA results recorded in Q1 2015 are mainly attributable to the flow-down effect of higher gross profit margin and lower operating expenses recorded in Q1 2015.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on (continued)

(1) System Sale – this refers to contracts that involve the outright purchase by customers of systems comprising the Group's products and technologies, and where these systems are in turn delivered as turnkey solutions. The scope of work for a system sale contract includes system design, implementation, testing and commissioning services.

(2) Managed Service – this refers to contracts that involve the provision of both systems comprising the Group's products and technologies as well as the Group's professional services, on a recurring, revenue sharing, software-as-a-service, pay-per-use or monthly or quarterly fixed and variable fee basis. Also treated as a managed service contract are system maintenance and technical support contracts with existing customers of the Group.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on (continued)

Review of the Group's financial position as at 31 March 2015 as compared to the Group's financial position as at 31 December 2014

Non-cash current assets of the Group decreased from \$10.171 million as at 31 December 2014 to S\$9.939 million as at 31 March 2015. This 2.3% decrease in non-cash current assets was mainly due to the decrease in trade and other receivables of the Group.

Total non-current assets of the Group decreased from S\$19.722 million as at 31 December 2014 to S\$19.231 million as at 31 March 2015. This 2.5% decrease in non-current assets is attributable to the effect of ongoing amortisation charges on certain intangible assets of the Group.

Total liabilities of the Group decreased from S\$5.847 million as at 31 December 2014 to S\$5.336 million as at 31 March 2015. This 8.7% decrease in total liabilities is attributable to reduction in trade and other payables and other liabilities.

Review of the Group's cash flow for the quarter ended 31 March 2015 as compared to the corresponding quarter ended 31 March 2014

The Group's net cash flow from operations for Q1 2015 was S\$0.919 million, in contrast with the net cash flow used in operations of S\$0.115 million for Q1 2014. This increase was mainly contributed by the higher profit before tax of S\$0.863 million for Q1 2015 versus S\$0.403 million for Q1 2014, and favorable working capital changes.

The Group's net cash flow used in investing activities for Q1 2015 was S\$0.204 million as compared to S\$0.093 million for Q1 2014. The higher net cash used in investing activities is mainly attributable to higher purchases of plant and equipment relating to managed service contracts.

The Group's net cash flow used in financing activities for Q1 2015 amounted to S\$0.002 million as compared to net cash flow from financing activities of S\$0.047 million for Q1 2014. This is mainly attributable to the absence of withdrawal of a deposit previously pledged by a subsidiary with a bank to increase its existing banking facilities' limit.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No profit forecast has been issued for the financial period under review.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The directors and management of the Group expect the remainder of 2015 financial year to remain challenging, especially for the parts of our business that generate revenues primarily from system sale contracts.

Although 2014 proved to be a year of stronger growth in system sale contract revenues, management does not anticipate this to be a trend that will readily extend into 2015. While every effort will be made by management and the teams across all our Business Units to sustain, if not improve, on the system sale revenues achieved in 2014, this source of revenue for the Group remains the least certain. Mobile network operators in all our regions of focus continue to shrink their capital expenditure budgets on bolt-on platforms and systems in favour of procuring these technologies on a managed service, opex based model. The only somewhat associated trend that can be readily expected to persist, is the downward pressure on margins where there are system sale contract opportunities to be had.

While the growth in system sale contract revenues is expected to be less certain and gross margin pressure expected to persist, management of the Group anticipates the steady progress in growing the managed service contract portfolio of the Group to be effective as a countervailing force.

Management is optimistic that growth of managed service contract revenues can be sustained over the coming years to drive the improvement in the overall financial performance of the Group. The strategy at Unifiedcomms business of the Group, will continue to be focused on developing and delivering high value, utility-focused application and platform services in partnership with the leading mobile network operators and service providers of the SEA, SA and MEA regions.

With the renaming of the Company to Captii Limited in 2014, the Group had in the second half of 2014 separated the identity of our operating units and subsidiaries – namely Unifiedcomms and GlobeOSS – from that of their investment holding parent company. This allowed the Company, re-branded as Captii, to clearly position itself as an investment company that not only invests in growing our own established businesses but also in promising technology and innovation originating outside the confines of our Group.

Captii through its technology investment and venture activities will be capitalising on the growth in internet usage - especially the mobile broadband variety - in the SEA and SA regions by strategically investing in early to late stage technology and innovation in internet-delivered applications and mobile and digital media. The Group's strategic investment plan in the year ahead will focus primarily on these growth businesses in the SEA and SA regions, and will be complemented by the growth-by-acquisition strategy already in place for the existing business units.
