JURASSIC WORLD / THE EXHIBITION

AT LA CITÉ DU CINÉMA
APRIL 14 - SEPTEMBER 2, 2018

Exhibition premieres just in time for *Jurassic World: Fallen Kingdom*, which arrives in theaters June 2018

Based on one of the biggest blockbusters in cinema history, Jurassic World / The Exhibition will open its doors at La Cité du Cinéma from April 14th to September 2nd, 2018.

Jurassic World / The Exhibition, a blockbuster since its inception
Unveiled at the Victoria Museum in Melbourne on March 19, 2016, and presented at the Franklin Institute in Philadelphia and the Field Museum in Chicago in 2017, the Exhibition has already allured more than a million visitors.

Jurassic World / The Exhibition makes its European premiere at La Cité du Cinema, Paris Saint Denis, just ahead of *Jurassic World: Fallen Kingdom*, which arrives in theaters June 2018.

Jurassic World / The Exhibition, the closest you'll ever come to living dinosaurs

Based on one of the biggest blockbusters in cinema history, Jurassic World / The Exhibition takes visitors on a journey to explore the wonders of *Jurassic World*. Audiences will take on the role of actual guests and tour the Park through lifelike re-creations from the record-breaking global film franchise.

Created in close collaboration with a renowned paleontologist Jack Horner, who served as paleontological advisor on *Jurassic World*, the Exhibition is infused with interactive educational elements — drawn from the real-world science of dinosaur DNA that allowed Jurassic World to come to life. Visitors of all ages can now learn all about these unimaginable prehistoric creatures.

Guests will board the Ferry to discover Isla Nublar. They will cross the famous *Jurassic World* gates to draw closer to the gigantic dinosaurs, some more than 7 meters high, and will be able to explore the Park on a guided tour.

They will embark on a family discovery to explore the Gentle Giants Petting-Zoo, enter The Hammond Creation Lab, have a chance to preview the Indominus Rex, the top-secret project of *Jurassic World*, and enter the Raptor Training Paddock.

Stare in wonder at a towering Brachiosaurus; come face-to-face to a Velociraptor and get a rare up-close look at the most vicious dinosaur of them all: *Tyrannosaurus rex*!

Jurassic World / The Exhibition, an awe-inspiring journey

Enjoy your visit, and remember ... if something chases you...RUN!

About JURASSIC WORLD: FALLEN KINGDOM

It's been four years since theme park and luxury resort Jurassic World was destroyed by dinosaurs out of containment. Isla Nublar now sits abandoned by humans while the surviving dinosaurs fend for themselves in the jungles.

When the island's dormant volcano begins roaring to life, Owen (Chris Pratt) and Claire (Bryce Dallas Howard) mount a campaign to rescue the remaining dinosaurs from this extinction-level event. Owen is driven to find Blue, his lead raptor who's still missing in the wild, and Claire has grown a respect for these creatures she now makes her mission. Arriving on the unstable island as lava begins raining down, their expedition uncovers a conspiracy that could return our entire planet to a perilous order not seen since prehistoric times.

With all of the wonder, adventure and thrills synonymous with one of the most popular and successful series in cinema history, this all-new motion-picture event sees the return of favorite characters and dinosaurs—along with new breeds more awe-inspiring and terrifying than ever before. Welcome to ***Jurassic World: Fallen Kingdom***.

Stars Pratt and Howard return alongside executive producers Steven Spielberg and Colin Trevorrow for *Jurassic World: Fallen Kingdom*. They are joined by co-stars James Cromwell, Ted Levine, Justice Smith, Geraldine Chaplin, Daniella Pineda, Toby Jones, Rafe Spall and Isabella Sermon, while BD Wong and Jeff Goldblum reprise their roles.

Directed by J.A. Bayona (*The Impossible*), the epic action-adventure is written by *Jurassic World's* director, Trevorrow, and its co-writer, Derek Connolly. Producers Frank Marshall and Pat Crowley once again partner with Spielberg and Trevorrow in leading the filmmakers for this stunning installment.
